

“Clean Cities University: AFV 101 & 102 Workshop”

Clean Cities Conference
Philadelphia, PA

Al Ebron

Executive Director

**National Alternative Fuels Training
Consortium**

Importance of AFV Training

- **AFV Training is important:**
 - **To have qualified automotive technicians to work on AFVs**
 - **AFV systems are different than regular gasoline or diesel fuel systems**
 - **AFV infrastructure is different**

Importance of AFV Training

- **AFV Training is important:**
 - **To decrease vehicular emissions and improve air quality**
 - **To make the use of AFVs viable**

AFVs Successful Implementation

- **Successful Implementation will require:**
 - **Affordable vehicles for fleets and individuals**
 - **Development of Infrastructure**
 - **Training of automotive technicians, operators and public and private professionals**

Successful Implementation

- **Successful Implementation will require:**
 - **Consistent and positive education and promotion program for AFVs**
 - **Dissemination of Information to Industry & Public**
 - **Incentives for AFVs and supporting infrastructure**
 - **Public Acceptance**

Summary

- **The NAFTC is a resource to help with
TRAINING and other
education and
awareness activities**

Summary (Cont.)

- **Partnerships make all these activities possible**
- **The NAFTC is fuel-neutral and has, and will, partner and provide training and awareness activities for all alternative fuels when a need is identified and adequate resources are available**
